## EAGLE SPOTLIGHTS

### 4HBeKindToYourMindClub

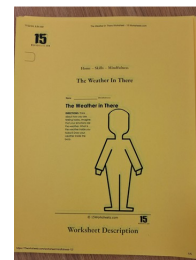

In December, our Eagles continued to learn more about mental health through a word search activity and journaling. They enjoyed personalizing their journal with beautiful motivational stickers provided by our Mental Health & Emotional Wellness MSU

Extension Educator Kea. "Mental Health Matters". This helps break down barriers around mental health and empowers our students to engage with an educated mind in a safe and respectful environment. This is the core of our 4H CIS BeKindToYourMind program: to equip our health ambassadors with the knowledge and understanding of mental well being in order to reduce the stigma around mental health and utilize coping skills.

During our last session, our health ambassadors reflected on their emotional exploration journey through the "Weather in There" activity. Thinking of our current emotional state as if it were the weather helps get a better grasp of how we're feeling, and how our emotions look like. As Kea explained, "there's no good or bad emotions". "It is important to slow down and check our temperature internally. What am I feeling and why?" Just like the weather, our emotions are varied, there can be clouds, rain, and also rays of sunshine. Learning how to identify and express what we're feeling inside is the first step toward emotional regulation and healthy coping.

We can't wait for our 2025 session next Friday!

## DEC/CRA Career Exploration Session

Our Eagles kicked off the Career Readiness Academy back in mid-December with a trip to Wayne State University with all of the other CRA schools and heard from some very inspiring speakers. January's session focused on Career Exploration and students completed the 'Hot Jobs and Personal Brand Review'. Our youth mentors also shared personal stories of what they thought they were going to be in high school versus where they are now!

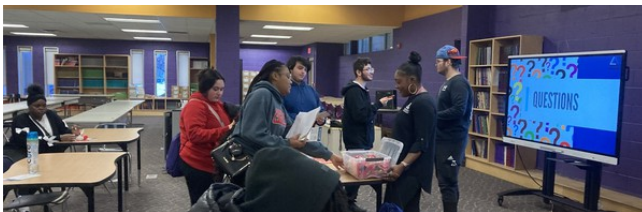

---

## High School Transitions Programming

Our senior Eagles had the opportunity to sign up for the High School Transitions presentation by our local Alliance of Coalitions for Healthy Communities. Students learned about strategies, resources and opportunities to help them begin planning their post secondary pathways after high school.

Thank you so much to the presenter Kayla for an exciting Kahoot game to wrap it all up, with amazing prizes!
